**Memorandum of Agreement
Between
Education and Workforce Development Cabinet
Office of Vocational Rehabilitation
And
Kentucky Educational Development Corporation (KEDC)**

This Memorandum of Agreement (MOA) is entered into, by and between the Commonwealth of Kentucky, Office of Vocational Rehabilitation ("the Commonwealth") and Kentucky Educational Development Corporation ("the Contractor") to establish an agreement for the provision of the Workforce Innovation and Opportunity Act, 2014, and Rehabilitation Services Administration's required provision of pre-employment transition services to students with disabilities. The initial MOA is effective from July 1, 2018 through June 30, 2020.

Scope of Services:

There are 173 local school districts and the Kentucky Schools for the Blind and Deaf throughout the state of Kentucky. All are members of the nine Special Education Cooperatives. The Special Education Cooperative Network is intended to assist local school districts in meeting the needs of its member districts. Services range from technical assistance, trainings, professional development, specialized services, research, and other needs identified by member districts and the Kentucky Department of Education. This Educational Coop has agreed to plan, coordinate and carry out student focused activities for high school students with disabilities (age 14-21) who are eligible or potentially eligible for OVR services in their region.

This Educational Coop director has agreed to carry out the following three tasks for the Office of Vocational Rehabilitation in order to assist OVR to develop and implement the five core pre-employment transition services as required by the Workforce Innovation and Opportunity Act (WIOA, Sec 422.113 (c) (5)&(8)). The five services are: job exploration counseling, work based learning experiences, counseling on post-secondary educational opportunities, workplace readiness training, and instruction in self-advocacy. Part of the coordination costs will include the location, facility, speakers, transportation, and materials necessary to provide the activity or event(s).

All contracted activities must focus exclusively on school students with disabilities, age 14-21, in need of pre-employment transition services who are eligible or potentially for the Office of Vocational Rehabilitation services. Schools may be secondary, public or private, home schooled, post-secondary educational colleges or universities, adult education, or an alternate school setting such as Juvenile Justice Services. (WIOA, Sec 422.113 (c) (5)&(8))

Objective 1: The regional Educational Cooperative will provide no less than two pre-employment transition services focused trainings per year of the contract (four total).

	Document Description	Page 2
1900000693	OVR Kentucky Educational Development Corp.	of 24

The large scale conference/trainings will provide opportunities for participation for all districts in their regions.

The objective of the training is to provide informational sessions on job exploration, work based learning experiences, post-secondary options, workplace readiness training, and self-advocacy, including peer mentoring. These components are based on the Office of Vocational Rehabilitation (OVR) requirement of providing pre-employment transition services for all students with disabilities who are eligible or potentially eligible for OVR services. (WIOA, Sec. 422.113 (a)&(b))

The purpose is to bring students with disabilities across school district lines together for the dissemination of transition related information and provide trainings on topics related to transitioning from high school to post high school activities, including employment.

Objective 2: Staff will coordinate with LEAs to provide the opportunity to participate in a variety of summer workshops/camps/internships/local college visits as developed and coordinated by the Cooperative OVR Transition Specialist. The Cooperative may partner with another entity to provide activities as long as clear division of cost is calculated. Staff may partner with local businesses to ensure summer work experiences are available to students with disabilities in their area, along with stipends to the students for participation.

Objective 3: Develop, plan, coordinate and carry out comprehensive weekly group workshops to the schools in their district during the school year.

Within the first quarter of each contract year the Cooperative will provide to the OVR Administrator an overview of their plan to implement in-school workshops and summer activities with timelines.

The educational cooperative will provide initial plans for each youth conference prior to the event and include an OVR contact person on their planning committee that will assist with the planning and development.

The budget must include all costs associated with providing the contracted services.

OVR Administrator must pre-approve agendas, curriculum, and all activities associated with providing the contracted services. Budget considerations include: staffing, number of school districts participating, the number of students estimated to participate based on the head count, the proposed curriculum for the workshops, summer workshop proposals, and an overview of their plan to implement with timelines.

	Document Description	Page 3
1900000693	OVR Kentucky Educational Development Corp.	of 24

The coops must have a pre-registration system in place with their local schools participating in their programs to ensure the OVR office receives the student information in a timely fashion. They will also maintain a comprehensive plan for data collection and quarterly reporting.

OVR will participate in the hiring of the staff, determine qualifications and will establish the staff goals and outcome expectations for performance. The staff will be certified full time staff, with benefits, with minimum bachelor's level of education and 5 years of experience working with students with significant disabilities. The staffing contract will be for a minimum of 215 days.

The Cooperative may partner with local Community Rehabilitation partners, post-secondary educational partners, career centers, advocacy groups and parent organizations in order to best service the students but there must be a clear division of tasks, work product, and costs to ensure no double billing to VR.

Special underserved student populations (foster care, DJJ, low incidence) may also be served by partnering with organizations best suited to the needs of the students. Utilizing existing cooperative educational staff such as outreach consultants, CCR consultants, etc. may also be counted as staff time on the contract when they are working directly with the student during a workshop.

Quarterly data collection and reporting requirements are: student permission from parents to participate, dates, activities, student information (911 data), sign-in sheets, and other data deemed necessary for VR monitoring requests.

Other agencies and additional staff may be contracted to assist with ensuring the programs are a success. Incentives to the students for participation are allowable. Coordinating with businesses to provide students with work experiences may warrant a stipend or a payment to the student; this is allowable but must be pre-approved.

MONITORING:

For each contracted task: before: we request student data collected (including documentation of their specific disability, parent permission, required Pre-ETS activity); after: provide number of students in attendance and conference evaluations. Other required submissions will be any receipts /contracts for purchases related to the conference or workshops, copy of presentation materials, agenda, biographies of speakers, and summaries of sessions. This information is required for federal monitoring purposes to ensure we are allocating funds for specific allowable expenses. If this information is not provided activities may be suspended until such a time that the required information is delivered.
