

# Aesop – MUNIS Bi-Directional Interface

Created by *PSST*, LLC

- *PSST* and Frontline Placement Technologies, the developer of Aesop, announce the first 100% bi-directional ..... automated ..... intuitive ..... seamless ..... electronic ..... bi-directional interface between MUNIS and **Aesop**.
- The development process has and continues to actively incorporate actual MUNIS and **Aesop** users on the Software Solution Team (SST).

## The **Aesop** - MUNIS Interface Program Will:

- Retrieve the absence and substitute information from the **Aesop** database and import the data through the MUNIS Time & Attendance module using client determined date ranges
- Provide control of the data by allowing access to incomplete or incorrect data prior to the MUNIS import
- Validate information entered into Aesop against the MUNIS database to eliminate the possibility of human error. Potential areas of concern are highlighted to the user. For example, a teacher with a zero leave balance in MUNIS would not be allowed to use a sick leave designation in **Aesop**.
- Update **Aesop** with MUNIS employee demographic or status changes, or new MUNIS employees.
- Establish default Aesop values for new MUNIS employees
- Eliminate data conversion from MUNIS to Aesop. The Interface automatically provides this capability
- Resolve control code compatibility issues between the two systems via internal conversion tables
- Eliminate the manual transfer of files between systems
- Utilize business logic rules specific to your district.

## What Does This Mean for You?

- TIME SAVINGS!
- Improve data accuracy
- Eliminate redundant manual entry
- Decrease teacher and HR personnel frustration. New substitutes are immediately available to the **Aesop** system
- Improve timeliness and data availability for payroll processing
- Employ accurate pay rates in **Aesop**
- Eliminate isolated “Islands of Information” within the district central office
- Reduce conversion costs

---

*I would like to invite you to join us and take advantage of this cutting edge technology . . . . Never before seen in the marketplace . . . . Let us help you handle the large and increasing amount of HR & payroll data processed by your district. Our company can perform an individual ROI for your district and show you why the **Aesop** – MUNIS bi-directional interface is a must.*

*Warmest Regards,  
Larry Roach, President / PSST, LLC*
