Short Name	RED FOOD COLORING
Manufacturer	000247
Product	920623
UPC	0-41351-92062-3
SCC-14	1 00-41351-92062-0
Servings per case	190
Serving Size	1 TSP
Storage Temperature	72 F
Shelf Life	2 YEARS

General Description

A red, clear liquid used to provide a light pink or deep red color to foods.

Preparation and Cooking Instructions

Use 2 to 3 drops per 8 servings. Be sure to add gradually until desired color is obtained. The more used, the darker the color. You may find this product to be more intense in color than our competitors' product.

Serving Suggestions

Use in icings and frostings, ice cream, cakes, candy, mints and desserts. Add to pie fillings or batters or anywhere a rich, red color or shade of red is desired.

Benefits of Using this Product

Because this product is a liquid, it is simple to control the amount used and, therefore, obtain the exact desired color. For ease of measuring, this product features a pour spout lid in two of its sizes. This product provides an easy and convenient way to add shades of pink and red to foods.

List of Ingredients

Water, Propylene Glycol, and Red 40.

Other Information

Red Food Color provides no flavor, only color.

Specifications**Packaging/Storage Information**

This product is packaged in three sizes (pint, quart and gallon) of clear recyclable plastic bottles with induction tamper proof seals. The pint and quart size also feature a handy pour spout lid for ease of measuring. For best results, store tightly closed in a cool dry place.
